INTERIOR DESIGN ON A NEW LEVEL

SINCE 22 YEARS

Specializing in luxury architectural and interior design for a spectrum of high-end residential clients, The Art Interior Design provides a tailored approach and seamless service. Our collective experience encompasses architecture, all aspects of interior design from international homes, world class hotel developments and hospitality projects, through to furniture, lighting, product and accessory design. Over 22 years of experience have helped us grow and made us truly believe that designing a property is more than just filling a space with beautiful furniture and nice accessories, but making every house a home to live in.

OF THE WORLD

OUR EXCEPTIONAL

Services

“IT’S ABOUT SOLVING
PROBLEMS AND CREATING
SPACES THAT BRING
CLIENTS JOY”

SPACE PLANNING AND DESIGN

For clients who want to manage their own projects. We design your space, provide dimensioned furniture and millwork plans, color palettes and a suggested furniture, lighting and soft goods package. Our involvement ends once we turn the design package over to you.

FULL SERVICE DESIGN

We manage your project from initial concept to installation. Whether your project involves one room or a whole house, we work with you to specify every detail, provide the drawings needed to execute the vision, work hand in hand with your contractor to troubleshoot and answer questions that arise through the process, manage trades as they relate to your project, procure furnishings, lighting, window treatments, art and accessories, and oversee installation and styling for a picture-perfect project.

TURNKEY DESIGN

For clients who want to walk into a completely designed home with minimal involvement. We work with you to establish a look and feel, priorities, goals and budget, and then we take it from there. Walk into your completely designed home with linens on the bed, food in the pantry, and wine in the cooler. Great for second homes or relocating across the country.

Our Team

BEAUTIFUL HOMES, BECAUSE YOU ONLY LIVE ONCE

In the design stage, we listen closely to each client's vision and goals for each specific project to create signature homes. Each project, each space, each detail, are unique. It is the true calling of this brand, with the purpose of serving and transforming peoples' lives, opening doors towards their own happiness. We are a full service interior design agency with residential and Commercial projects. Whether minimalist or maximalist, we cater high-end full services, from furnishing and lighting only, to complete remodels, to homeowners
